Чтобы настроить сетевое подключение через роутер Dlink Dir-100 для работы в сети необходимо сделать следующие действия:

1. Подключите сетевой кабель вашего компьютера в любой из 4-х LAN портов роутера. Кабель Уют Телеком должен быть подключен к порту WAN (иногда данный порт называется Internet).

2. Откройте браузер (например, Internet Explorer) и перейдите по адресу 192.168.0.1

3. Введите имя пользователя (User Name) и пароль (Password). По умолчанию имя пользователя: admin, пароль не требуется, как показано на рисунке:
